Filten är virkad med corner to corner metoden "C2C". Mönstret innehåller ett diagram och även beskrivning varv för varv så du kan hålla koll på hur många pixlar du ska virka i varje färg. Pilarna i beskrivningen visar åt vilket håll varvet går. Du börjar virka i det högra nedersta hörnet.

Ett tips är att fästa trådarna allt eftersom du virkar så slipper du en miljon trådar på slutet :-)
Tycker du att det är jobbigt att ha koll på en massa olika nystan kan du virka upp en del av garnet på klädnypor, då kan du enkelt fästa fast dom färgerna du inte använder på arbetet och ha dom sittandes där medans du virkar för att undvika trassel.

Corner to corner

Varv 1

1. Börja med att göra 5 luftmaskor

2. I tredje luftmaskan virkar du 1 stolpe

3. Gör stolpar i de nästa 2 luftmaskorna.
Du har nu gjort din första pixel

Varv 2

1. Gör 5 luftmaskor

2. Virka 1 stolpe i tredje lm från nålen

3. Virka stolpar i de nästa 2 lm.
Nu har du en till pixel

4. Nu ska pixeln virkas ihop med den första pixeln, gör det genom att vända på pixeln och göra en sm i vänstra sidan på den första pixeln. På bilden ser du dom ihopvirkade.

5. Gör 2 lm (ersätter den första stolpen)

6. Virka 3 stolpar ner i den 2lm-båge du precis gjort en sm i. Du har nu 2 pixlar på varv 2

Varv 3

1. Gör 5 lm

2. Virka st i tredje lm från nålen och därefter 1 st i de sista 2 lm.

3. Virka 1 sm i pixeln under.

4. Gör 2 lm och virka 3 st i den lm-bågen du precis gjort 1 sm i.

5. Gör 1 sm i pixeln bredvid. Gör 2 lm. Virka 3 st ner i den lm-båge du precis gjort 1 sm i. Du har nu 3 pixlar och varv 3 är klart.

Minska För Hörn

1. Istället för att göra 5 lm i slutet på varvet virkas det nu 3 sm längs med sidan på den sista pixeln.

2. Försett och gör pixlar som vanligt längs med varvet.

3. Här ser du hur du minskar varvet om. Minskningen ska ske i slutet på ett varv. Då virkar du ihop pixlarna med 1 sm.
